

BCP/DR POLICY:-

Introduction

Shri Venkatesh Stock Broker Services India Pvt Ltd is committed to providing the best possible experience to its customers and the best possible relationships with employees, shareholders and suppliers. To ensure the consistent availability and delivery of its products and services, **we** developed the following business continuity and disaster recovery (BC/DR) policy in support of a comprehensive program for BC, DR and overall business survivability.

The Company, like any other firm, is exposed to potential risks that could disrupt or destroy critical business functions and/or the production and delivery of Company goods and services. Our strategy for continuing business in the event of an incident is to ensure the safety and security of all employees; and to continue critical business functions, production and delivery of products and services from predefined alternative sites.

Statement of Policy

Each department in the Company is responsible for preparing current and comprehensive business continuity plans (BCP) for its operations. Certain departments, such as Information Technology (IT), are also responsible for disaster recovery plans (DRP) to ensure that any damage or disruptions to critical assets can be quickly minimized and that these assets can be restored to normal or near-normal operation as quickly as possible.

When a plan is completed, approved and implemented, each plan will include procedures and support agreements which ensure on-time availability and delivery of required services.

We recognize the importance of an active and fully supported BC/DR program to ensure the safety, requires the commitment of each employee, department and vendor in support of the activities required to protect Company assets, mission and survivability.

Verification of Policy Compliance

BC/DR compliance verification is managed by the BC/DR Team with support from other relevant internal departments. Each plan must define appropriate procedures, staffing, tools and workplace planning activities necessary to meet compliance requirements. Plan templates have been developed to facilitate the plan development process, and these templates shall be used for all plans.
