

Policy on Client Code Modifications/Error code

1. The modification to the client code is to be done only in exceptional cases and not as a routine one.
2. The reason for modification has to be ascertained and analyzed and genuineness is to be established and also its impact on the clients should be studied before the modification.
3. Normally as a principle, other than for punching errors, no modification to the client codes be Allowed
4. Therefore it is imperative that the issue should be reported to the senior level Manager/Director and only with his approval, the modification should be carried after being satisfied that it is genuine, the same is required to be done to protect the interests of the client.
5. Hence the facility to modify the client codes should be available only at the Corporate Manager level and should not be given to the branches/franchise/sub brokers.
6. Training program should be conducted to all the Dealers and they should be explained how code modifications can be misused and what steps should be taken to avoid the same. It also should be explained that code modifications should not be encouraged to the clients except for cases like punching errors"/"typing errors".
7. Such Punching errors/Typing errors are to be rectified on the Exchange platform as per the SEBI/Exchange rules & regulations and should be transferred to the correct client code. The errors which are not assignable to any client should be transferred to "ERROR" code..
8. The policy should be reviewed and necessary changes to be made by the Directors at least once every financial year.
